

Academic Position Description: Full-Time Clinician Investigator

Faculty Member: _____

Hospital/ Organization: _____

General Description: The faculty member directs a significant research program closely linked to clinical activity.

Time Distribution: The faculty member is engaged in research, teaching and CPA activities, including relevant clinical activity, for 80% or more of their professional time. The time commitment for research is up to 50%. The time commitment for research, teaching (concurrently with clinical care and/or in organized educational programs), and scholarly activities is described below:

	Time Distribution (must add up to 100%)	Description
Clinical Activity		The faculty member generally has no more than 25-40% of their time committed to clinical service. Clinical care and research site will vary according to research and location of clinical practice.
Research Activity		The faculty member will be a principal investigator or hold peer-reviewed operating grants (or major industry grants permitting independent research) to support their research program. There must be ongoing evidence of productivity in the form of peer-reviewed original research papers or equivalent contributions to the knowledge base of the discipline.
Teaching Activity		The faculty member is responsible for dissemination of research. He/she is involved in the education of undergraduate students, post-graduate trainees, graduate students, Continuing Education participants and/or faculty development – formal as well as informal education (rounds, etc.) The faculty member is expected to:
